

Technical Information

kLine Roxy Cleaning Wipes

kLine Roxy Cleaning Wipes

Is an ultra-modern process, for a fast and easy hand cleaning, in whatever places, without water, without rinsing, without wiping, without drying and without residue.

kLine Roxy has been developed from organic solvents with a high-quality detergent, together with an abrasive wipe (but not scratchy), which ensures a high cleaning power, without any danger for the epidermis.

More than against ordinary soiling, kLine Roxy is also efficient against heavy greases, lubricants, adhesive, oil, tar, sludge, bitumen, fresh paints, inks, wax and many more persistent stains, such as charcoal, graphite and grass spots.

The cleaning wipe can be used on smooth surfaces, such as: computers, copying machine, fax machine, white boards, car`s interior, rims, machines.

Efficient on hands, the cleaning wipe also enables a fast scrubbing of any smooth and non-porous surfaces (tools, mechanic parts, countertop, car body)

kLine Roxy Cleaning Wipes benefit from a classification among cosmetic products

WHERE TO USE:

Mechanic industry – automotive – marine – aeronautic – transport – civil engineering – building trades – plumbing – paint – car repairing – printing – technical services – town council – community – heating industry – food industry – agriculture
